CHEAT CODES

Cheat code = gonzoandjon

To use the cheats, you must start a mission and select a commando. Then type in gonzoandjon - you wont see it being typed. If it is working, a "V" will appear on the screen when you press [Ctrl] + [v].

* [Shift] + [x] = Teleport Selected Commandos to Pointer Location.

* [Ctrl] + [v] = Invisible to Enemy.

* [Ctrl] + [-] = Show FPS (frames per second).

* [Ctrl] + [Shift] + [N] = Finish Mission (no rank promotion).
